**Paris, 13th of July 2023** - Wingly, Europe's leading flight sharing platform, welcomed their 100,000th passenger this week. This marks an important milestone for the platform, created in 2015 to democratise light aviation and making it accessible to a wider range of people. The 100,000th passenger, Cédric Clech, had booked a flight over Disneyland Paris from Lognes airfield.

With 50% of the platform's annual flights taking place between June and September, the number of passengers taking off is set to increase significantly this summer. Undoubtedly, these months offer optimal flying conditions due to the splendid weather. It's also the occasion to get a bird's eye view of the UK's wonderful landscapes with vibrant summer colours. Therefore, Wingly has put together a compilation of budget-friendly flight recommendations for this season.
